User/Installer Responsibilities						
It is important to understand that the existence of this document alone does not automatically constitute authority to install the engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statement in Blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

Customer: RotorLink Technical Services PN: 704A32832000 Qty: 1	Description: PCB, fire detection Discrepancy	Cust PO: R2019-84D TSN: TSO: TSR:
---	---	--

Specification: Repair spec FRS-6 Rev orig, 09/02/16
Hidden Damage: N/A **Searched for applicable AD's:** None found

Serial Number(s): FAS20605

Task: Preliminary Inspection

Start:  183607S	Stop or Complete:  183607C
--	---

Preliminary Inspection

Action: Reg No: N/A, A/C Eng. Serial No: 5045, Wo: P2017-29. Unit received in fair condition requires cleaning and fresh conformal coating over PCB traces.

Inspected by: Mike Johnson 10/14/2019 11:11:29 AM

Task: Repair/In Process Insp

Start:  183611S	Stop or Complete:  183611C
---	--

Repair/In Process Insp

Action: Repaired: Unit cleaned and re-insulated PCB with conformal coating. Unit passes all tests in accordance with Repair spec FRS-6 Rev orig, 09/02/16.

Inspected by: Mike Johnson 10/14/2019 11:11:33 AM

Task: Final Inspection

Start:  183612S	Stop or Complete:  183612C
--	---

Final Inspection

Action: Inspected.

Inspected by: Mike Johnson 10/14/2019 11:11:41 AM

Maintenance Release: The appliance identified above was repaired and/or inspected in accordance with current Regulations of the Federal Aviation Administration and, with respect to the work performed, is airworthy and approved for return to service.
